

SCHEDULE OF FEES AND CHARGES

INTRODUCTION:

In compliance with the Local Government Legislation Amendment Act 2003 effective 4 March 2003 amendments have occurred to the previous format of Council's Schedule of Fees and Charges.

All fees and charges included in Council's Schedule of Fees and Charges have been identified as either Regulatory (R) or Commercial (C).

Regulatory Fees and Charges includes the statutory legal source (Division 2A – Regulatory Fees) of power under which Council has fixed the fee or charge, including the reference applicable under Section 1071A of the Act.

1071A Paragraph reference

- (a) an application for, or the issue of, a licence, permit or other authority under a local government act
- (b) recording a change of ownership
- (c) giving information kept under a local government act
- (d) seizing animals under a local government act

The regulatory and commercial fees identified in the Schedule of Fees and Charges have been reviewed by Council.

Broadsound Business Unit requires the payment of fees and charges so that some or all of the cost incurred by it in assessing and processing development applications and for the provision of services is recovered.

This schedule sets out fees and charges in force as at 1st July 2007.

SECTION A – DEVELOPMENT APPLICATIONS/TOWN PLANNING

FEES TO ACCOMPANY APPLICATIONS

The required fee should accompany any development application. An application that is not accompanied by the required application fee cannot be processed as it is not 'properly made', within the meaning the *Integrated Planning Act 1997*.

FEES TO COMBINED APPLICATIONS

Applications that involve several development types may be made at the same time for a single premise. The total amount payable is the sum of the fees payable for each component of the application.

FEE FOR PRELIMINARY APPROVAL

The fee for an application for preliminary approval is 80% of the fee for a development permit.

FEE FOR APPLICATION FOR DEVELOPMENT PERMIT AFTER PRELIMINARY APPROVAL

If, in the opinion of the Chief Executive Officer, the application for a development permit is essentially similar to the preliminary approval, 70% of the fee for a development permit. If the applicant is different or introduces significant new material, 100% of the fee for a development permit.

FEES AND COSTS – MAJOR DEVELOPMENT

Council actively supports suitable developments and will work actively with a developer, if he/she wishes, to achieve useful and ecologically sustainable projects.

The fees shown later in this schedule are intended to deal with cases where a developer provides very detailed, complete information either up front or during the 'information request' stage. Some developers may prefer to work with Council to determine standards and practices acceptable to all interested parties before a formal application is lodged. In these cases Council may negotiate a fee sufficient to recover all or some of its costs.

DEEDS OF AGREEMENT AND THE LIKE

Council will prepare documents of this class when required to give effect to development approvals. It will recover the actual cost of preparation of the documents by its solicitors or others plus a margin, 10% to cover its supervisory expenses.

ASSESSMENT OF ENVIRONMENT IMPACT STUDY; SPECIALISED TECHNICAL OR SCIENTIFIC REPORTS

In addition to the fees shown hereafter, a fee of \$1,650.00 (minimum) will be charged if the Chief Executive Officer believes that it is necessary to commission engineers or others to advise Council about the document or to assess it. If the actual cost of the assessment or the like is more than \$1,650.00, payment of the reasonable additional costs involved will be payable.

REFUND OF APPLICATION FEES

No refund will be made if an application has been refused. If an acknowledgement notice has been issued but no

Broadsound Business Unit – Schedule of Fees & Charges 2007/2008

assessment or evaluation of the matter has been undertaken by Council or its officers, 80% of the application fee will be refunded if it is formally withdrawn. If the matter has been substantially assessed or reports are prepared or the matter is listed on Council's business paper, no refund will be made.

CONCESSIONS

An application fee may be remitted in part if, in the opinion of the Chief Executive Officer, the effort involved with assessment is fairly inconsequential because the proposal is very simple, or because some public benefit will follow approval of the application.

MEANING OF TERMS

The process for assessing development has changed since the Integrated Planning Act took effect in 1998 and the term for 'development' is defined under that Act as any of the following:

- Carrying out building work;
- Carrying out plumbing work;
- Carrying out operational work;
- Reconfiguring a lot;
- Making a material change of use of a premise.

The fees for the various classes of development applications are set out as to reflect the definition.

**** denotes GST inclusive prices.**
