TRADE WASTE APPLICATION OR CHANGE OF APPROVAL DETAILS

TRADE WASTE APPLICATION INFORMATION

WHAT IS TRADE WASTE?

Trade waste is any water-borne waste from business, trade or manufacturing premises. This does not include waste that is a prohibited substance, human waste or stormwater, under the Water Supply (Safety and Reliability) Act 2008.

Liquid wastes are produced by a range of industrial, commercial and domestic activities. The Environmental Protection Act 1994 prohibits the pollution of the environment through the discharge of these wastes.

WHAT IS A TRADE WASTE APPROVAL?

A trade waste approval is approval from Isaac Regional Council to discharge trade waste into Councils Sewer System. Trade waste may not be discharged into Council's sewer unless the owner of the premises has been granted a Trade Waste Approval.

Approvals are accompanied by conditions which are always required to be met. These include minimum requirements for pretreatment infrastructure, limitations relating to contaminants and sewer acceptance criteria of waste water, service schedules for pretreatment infrastructure and compliance with periodic audits carried out by Council officers.

Approvals are categorised depending on risk and impact to infrastructure, the category will determine the application and discharge fee amounts respectively.

RENEWAL OF A TRADE WASTE APPROVAL

Trade Waste Approvals are valid for a specified time period, not to exceed 5 years; as per Council's Trade Waste Policy and Trade Waste Environmental Management Procedure; subject to payment of the annual discharge fee. Fees are set annually in the Isaac Regional Council Fees and Charges.

ALREADY HAVE AN APPROVAL, BUT SOMETHING HAS CHANGED?

The approval holder must lodge a change of approval details form if discharge varies from that of the approval for example: changes in the waste generator (lessee) of a premises, after shop fit-outs and refurbishments that require Plumbing approval, or where a change in process occurs that materially affects the trade waste volume or quality. Changes to existing contact details should be provided to Isaac Regional Council in writing.

AUDITS AND INSPECTIONS BY COUNCIL OFFICERS

Council Trade Waste officers will carry out a routine pre-approval inspection of the premises before issuing an approval. Approval holders are subject to routine audits periodically. Inspections are carried out to ensure; that pretreatment facilities are regularly and properly serviced, all storage areas are properly isolated and are not improperly connected to sewer, there are no unauthorised trade waste connections to sewer, there are no illegal, improper or non-compliant connections to stormwater, sewer, water etc and that work practices do not result in a breach of the trade waste approval or legislation.

AUTHORISED AGENT

Authorised agent shall mean a person or firm appointed by the owner(s) to act on their behalf, only in matters of trade waste. Notification of such appointment must be lodged in writing with Council.

WHERE CAN I FIND COUNCILS TRADE WASTE POLICY AND THE TWEMP?

Copies of these documents are available on Council's website www.isaac.qld.gov.au or contact the Building Services department on 1300 ISAACS (1300 472 227) for assistance.
