ORGANISATION SUMMARY:

OUR VISION:	Helping to energise the world. A region that feeds, powers and builds communities, now and for the future.
OUR GOAL:	To pursue long-term sustainable futures for Isaac's communities.
OUR VALUES:	Community Focus Teamwork Caring Positive Work Ethic

We're a region unique in charm and a character-growing attraction for many keen to explore the road less travelled. It's a place where traditional country qualities live on within modern, vibrant communities.

Isaac Regional Council plays a role to ensure our communities have a long sustainable life, so it continues to be a great place to raise a family and to find new or old passions.

Our public spaces are valued and activated, our communities' lifestyles and wellbeing are prioritised, and our individual and collective identities are celebrated.

We need to use new ideas in everything we do because of the fast changes happening all over the world.

This helps us deal with changes and provide the best service. As a Council, we will continue to maintain a clear and balanced vision for the future that shapes all our decisions as we feed, build and power communities.

DEPARTMENT SUMMARY:

The Infrastructure department ensures an integrated approach to internal organisational services across the organisation. The Infrastructure department is responsible for the civil infrastructure management functions including operations of Council.

POSITION SUMMARY:

The Plant Operator position provides assistance with coordination, integration and delivery of services and the construction, maintenance and operation of vehicles, plant and equipment across Isaac Regional Council.

DUTIES:

Position Accountabilities and Performance Objectives

1. Operate and services vehicles, plant and equipment for construction, maintenance and urban services.
2. Undertake labouring duties as required.
3. Working in remote areas (camping out) as required.
4. Undertake any other duties as reasonably directed within the limits of the employee's skills, competence and training.

KEY COMPETENCIES:

Essential Knowledge and Skills

1. Relevant certification for the operation of vehicle, plant and equipment specific to the role and minimum 12 months experience.
2. Knowledge and experience in basic mechanics and general maintenance is required.
3. Ability to undertake general labouring duties as required.

Experience

1. Previous experience with repairing and maintaining plant equipment, such that repair works are minimised.

Qualifications
