HOW YOU CAN JOIN THE GRASSROOTS CAMPAIGN**

Glenden and all Queensland communities have a right to a future. We ask the Resources Minister to apply the guiding principles from the Environmental Impact Statement and the principles of the Strong and Sustainable Resource Communities Act, to inform his decision and do what is in the public interest. This mining company has to earn its social licence and house the majority of workers in the township, especially when Byerwen has a 50-year lifespan and is critical to Glenden's future.
