CUSTOMER SUMMARY

The Local Government Regulation 2012 allows only one ground for objection. The property owner must demonstrate the property exclusively meets the criteria of another differential rating category. Please refer to the "Your Rates Brochure" that was enclosed with the rates notice or download a copy from www.isaac.qld.gov.au for a list of the differential rating categories.

For this objection to be valid, it must be signed by the owner/s and returned to Isaac Regional Council within 30 days of the issue date on the rate notice. Council must notify the ratepayer of its decision within 60 days of receipt of objection. The lodgement of an objection does not defer the requirement to pay rates as detailed in the rate notice, and rates as levied must be paid by the due date whilst the objection is being assessed. If your objection is successful, Council will process an immediate adjustment and advise you of the adjusted amount as soon as possible.

REASON FOR OBJECTION

This objection outlines that the 'Infrastructure and/or Service Charges' for this property should have been described as the 'Infrastructure and/or Service Rate Charges' below other than what was defined in the most current rate notice.
